Websites I've found helpful so far for our project:

networkX functions:

https://networkx.org/documentation/stable/reference/algorithms/approximation.html

Reachability
https://stackoverflow.com/questions/76071627/is-there-a-better-or-more-simple-way-to-calculate-reachability

Fast API commands:
https://fastapi.tiangolo.com/fastapi-cli/
